

Family Night Education Series

Exploring Saturn at Ames

An Invitation to Bay Area Families to Share in the Experience of Exploration and Discovery

NASA Ames Research Center

Moffett Blvd. Exit off Hwy. 101

Saturday, **April 16**, 2005

6 - 10:00 pm - Exhibits & Activities for Kids

7 - 8:30 pm - Presentation by Experts

8:30 - 10 pm - Viewing with Telescopes

Exploration Center & Building 943

Free Admission, Open to the Public

The event is being held in conjunction with National Astronomy Day and will feature the images and information from the Cassini-Huygens spacecraft. A panel discussion with planetary scientists and mission experts **Dale Cruikshank**, **Jeff Cuzzi**, **Chris McKay**, and **Jeff Moore** will present the latest data from the giant gas planet, its rings, and many moons. The Peninsula Astronomical Society will also set up telescopes for public viewing of Saturn and other night objects.
